*To whom it may concern,*

*We had the privilege to work with Morris Interactive in the fall and winter of 2008. They developed and facilitated several leadership, supervisory, harmony and team building workshops for our employee and management teams.*

*We believe that the value of this training is far greater than the investment. The multiple trainers who we worked with were highly experienced in their fields, knowledgeable and exceptional communicators. Our team members were able to immediately implement the skills and tools that were introduced and improved their performance without delay.*

*In addition to providing our members with new skills and tools, we were also extremely pleased with the customization and uniqueness of the training. Each workshop included fun and interesting activities that held participants interest throughout. The trainers were able to motivate our employees to not only improve their work performance but also enhance their everyday life and relationships.*

*We will continue to use Morris Interactive as our training provider and look forward to our next training opportunity. I would be happy to answer any questions that you have about the quality of the services provided by Morris Interactive.*

*Sincerely,*

*Darcia Kaysaywaysemat
